"The whole art of teaching is only the art of awakening the natural curiosity of young minds for the purpose of satisfying it afterwards."

As a fresh graduate, I am much honored to be one of the privileged scholars who can jumpstart their careers with the right footing. With the years of learning and re-learning things, I am now equipped with more knowledge to capture the world as it is and make a difference. I must admit that the learning process never ends, and I am just purely glad that the curiosity in me has been awakened, and I am now thirsty for more experiences that are moving and worthwhile.

Now that I have finished my 4 year course – Bachelor of Science in Business Administration Major in Marketing and Entrepreneurship, I would like to extend my warmest gratitude to your office for facilitating my studies and for providing me with the financial support I needed to accomplish for the semester. In all honesty, even with my drive to finish my schooling, it wouldn't have materialized into this success without the money needed to pay for fees and for me to enroll in the institution I have earned my degree from.

So again, I am deeply touched that I have reached this far with you, and that I can now move on to another phase in my life. I hope you will continue to inspire young minds to push through with their schooling and to gain the best armor there is in their lifetime: education.

May your good office prosper in the years to come.

Respectfully yours,

Jan Michael Ducay
