

BACHELOR OF ARTS English Language Studies

The Bachelor of Arts in English Language Studies program produces graduates who are competent in research, language education, language use and communication.

As they explore the evolving nature of English language system and development, students apply critical and creative thinking through practice with written and spoken discourses such as the creation and presentation of extensive research works and other linguistic studies.

The Program in English Language Studies builds competencies for these jobs:

- Language Experts
- Publicists
- Researchers
- Language teachers
- Copy editors
- Content writers
- Translators
- Technical writers
