

BACHELOR OF ARTS History

History is the study of past events and developments. The past is examined, analyzed and interpreted to tell a story of our identities and to provide us with the experience of living in our imagination how man learned and survived history.

The Bachelor of History (AB HIST) program offers interdisciplinary courses such as public history, geographic information system, historiography, and historical research methods among others.

History majors are provided with a wide range of activities such as heritage tours and field trips to complement classroom discussions of key events which provide a fuller grasp of a relevant history to present society.

The Program in History builds competencies for these jobs:

- Civil Service Staff or Officers
- Lawyers
- Archives/Record Managers
