

BACHELOR OF SCIENCE Internal Auditing

The Bachelor of Science in Internal Auditing is a program recommended for individuals who plan to make a career in Internal Auditing. Internal Auditing is an independent, objective assurance and consulting activity designed to add value and improve an organization's operations.

It fosters wealth creation by evaluating emerging technologies; analyzing opportunities; examining global issues; assessing risks, controls, ethics, quality, economy and efficiency; assuring that controls in place are adequate to mitigate the risks; and communicating information and opinions with clarity and accuracy.

Hence, internal auditors support clients in promoting wealth management and the accomplishment of the overall goals and objectives. Wealth distribution is nurtured through the creation of more employment opportunities, thereby stimulating economic growth when clients improve the operation of the organization as a result of the Professional Internal Auditors' services and advices.
